District 7 Special Primary Oct. 7 Poll Observation Report

The League of Women Voters of Williamson County (LWVWmCo) had nine members volunteer as observers for the Special District 7 Primary Election. They observed at one of the following polling locations:

Westwood Elementary
Pearre Creek Elementary
Hunter's Bend Elementary
Williamson County Enrichment Center
Legacy Middle School
1st Presbyterian Church
Hillsboro Middle School
Independence High School
Church of the City

Each observer completed a survey focused on what they observed. This report is based on their observations and comments.

The LWVWmCo commends the Williamson County Election Commission for another well-run election.

Overall

LWVWmCo observers reported short lines, with voters taking approximately 5 minutes or less to complete the voting process. All the observers noted that the flow at the polling sites was excellent. They also stated that the locations were clean, well-organized, and that the number of voting machines and tabulators was adequate.

They also commented that the poll workers and officials at each location were professional and friendly. At two locations, voters requested assistance, and the poll workers obliged, offering help willingly and professionally.

ADA Compatibility Issues

No specific issues were reported at any of the polling places, except for two of the polling locations. The observer at Westwood Elementary noted that the entrance door was propped open. Anyone needing assistance could enter without difficulty. However, if the door were closed, anyone needing help to enter would not have been noticed by the poll workers, who could not see the door from the gym.

Voting Entrance Signage

The required signage was visible at most of the polling locations. However, the observer at Hunters Bend noted that a sign allowing a person with disabilities or a visibly pregnant woman to go to the front of the line was either missing or not readily visible when entering the polling location.

Voter Registration and Other Issues

None of the observers reported issues with voters being turned away because they were not registered to vote or had problems with addresses or name changes. The most frequent reason why voters were turned away was because they did not reside within the 7th District. This reason was noted at all but two locations during our observers' two-hour shifts. Our observers noted a total of 36 voters impacted during their brief time observing, suggesting a significant number of voters were turned away throughout the day. In each instance, the poll workers and/or election officials were courteous and professional in dealing with these voters, many of whom seemed confused and/or surprised.

At one polling place, a campaign worker was asked to leave because she had entered wearing a political hat. The election official was polite and walked her to the door while explaining the rules.

Finally, the Church of the City location continues to provide some challenges. Our observer noted that the way to the parking lot closest to the entrance was not clearly marked, and the signage indicating the actual entrance to the building was also not clearly visible. Once the voter entered the building, they were directed to the polling location by a worker, which was very helpful.

League of Women Voters of Williamson County Recommendations

- Check to determine if all exterior doors to the polling locations either have a handicap door opener or are visible to the poll workers so they can assist handicapped voters if necessary.
- Before the upcoming election for District 7, run a campaign encouraging voters to check their voter registration card or utilize the VoteTN.gov website to determine if they reside within the 7th district.
- We also encourage the Election Commission to run a similar campaign for the Franklin Municipal race currently in progress to assist voters in determining if they reside in either Wards 1, 2, 3, or 4.
- The League is committed to assisting the Election Commission in advertising this information to voters in Williamson County and encouraging the use of the LWV Vote411 website, which helps voters identify their Districts and Wards by their address.

Respectively Submitted,
Dorinda Smith
President, LWVWmCoTN
