RE: 2022 1095-C Forms

The 1095-C form is provided to you as proof of the health coverage that Williamson County offered you and your dependents. It contains information about who provides the health insurance, as well as other information about the health coverage that was offered and if you elected coverage at any time during 2022.

Even though you may need to provide information regarding coverage when completing your tax return for 2022, you do not need your 1095-C form when you file the tax return. The IRS will receive a copy of the information provided to you on the 1095-C form.

Currently, there is no penalty for not having ACA mandated coverage in 2022 for residents of Tennessee. Consult your tax advisor if you have questions regarding individual tax penalties.

Active full time employees can print a copy of their 1095-C form by logging into the benefits system.
