

ITEM 1: URBAN GROWTH BOUNDARY PUBLIC HEARING

- 1. Urban Growth Boundary: The city of Spring Hill is seeking a favorable recommendation of expansion of the City of Spring Hill Williamson County urban growth boundary.**

Williamson County, TN Proposed Urban Growth Boundaries & Planned Growth Areas

- **The City of Spring Hill, along with Williamson County, Brentwood, Fairview, Nolensville, Franklin, and Thompson's Station are all working to update the Williamson County Growth Plan. Spring Hill is currently evaluating its Urban Growth Boundary (UGB), which is a defined area beyond the city limits in which the City of Spring Hill could grow into overtime.**
- **Williamson County's existing Growth Plan, which was developed pursuant to the requirements of Public Chapter 1101, was adopted in April of 2001.**
- **The state legislature required all counties in Tennessee not part of a consolidated metropolitan government to complete a growth plan. In addition to the state law requirement, the UGB sets the limits for land use, transportation, and sewer basin planning efforts. Spring Hill Rising 2040, Adoption of the Unified Development Code and policy help manage growth and development throughout the city limits and the UGB.**

The City of Spring Hill hosted a series of stakeholder meetings for UGB public input. Two in-person meetings were held at the City of Spring Hill City Hall in October of 2021. The public input resulted in collaborative discussion between the City, city residents, and unincorporated county residents. Following the public engagement meetings, findings of the public engagement were presented to both the City of Spring Hill Planning Commission and BOMA for consideration and further input.

General Description of Changes to UGB

The final version of the City of Spring Hills expanded Williamson County Urban Growth Boundary Map offers the City's intention for responsible and smart growth over the next 5 years. The boundary was defined based on growth projections, the consistency with the existing boundaries of the City of Spring Hill's Maury County UGB, watershed and drainage basins, and a Williamson County Urban Growth Boundary expansion that can accommodate and manage future growth of the City, while ensuring that the proposed Urban Growth Boundary is sufficiently compact as to not contribute to leapfrog and noncontiguous development patterns and to protect rural and agricultural lands.

Table 1.1 shows the city has grown by 64.9% from 2011 to 2020, with an average growth of 7.2% each year.
