

The Williamson County Major Thoroughfare Plan Update is a 25-year roadway plan designed to accommodate the travel needs of growth in unincorporated Williamson County as well as its neighboring jurisdictions. Based upon 2035 regional population and employment forecasts, this plan forms the basis of the county's roadway infrastructure needs. The Major Thoroughfare Plan provides:

- An advance understanding of the county's planning objectives;
- A coordinated approach to road planning;
- Solutions to traffic issues brought by growth;
- Mechanisms to ensure that development pays for itself.

This plan is developed by Williamson County Community Development in concert with the Nashville Area MPO and neighboring jurisdictional stakeholders.
